

Thank you so much for all the support you give our hemophilia patients; you have saved many lives.

~ Agnes Kisakye, Hemophilia Foundation of Uganda

Thank you for the donation of factors that have helped me a lot. My family and I are most grateful. We really appreciate your support. God bless you.

~ Chimdi Nwawueze, Nigeria

We are so thankful to Project SHARE for helping the Nepal Hemophilia Society (NHS) regularly by donating precious factor concentrates. Your donations have helped 7 patients with brain hemorrhages, 2 with abdominal bleeds, and 4 surgeries.

~ Shashi Pokhrel, Nepal

Thank you so much for caring about little Toakau. He was in so much pain that he was awake the whole night. The medication is so wonderful. The pain gradually disappeared in a few hours. We are so grateful to Project SHARE; he is doing fine now.

~ Teraina Bangao, Christmas Island

**PROJECT SHARE**

*It's time to give back*

## What Is Project SHARE?

Project SHARE (Supplying Hemophilia Aid and Relief) is a humanitarian program that donates factor, a lifesaving blood-clotting medicine, to patients with bleeding disorders in developing countries, and to the hospitals and nonprofit organizations that support them.

Since its inception in 2002, Project SHARE's donations have allowed students to return to school; attracted rural patients to urban clinics for treatment and education; supported lifesaving surgeries and physiotherapy; empowered patients to take control of their health and wellness; and encouraged patients and families to create hemophilia societies where none existed.

Project SHARE's unique program assures that tens of millions of dollars worth of factor, which would otherwise be destroyed, reaches impoverished people with bleeding disorders. This factor comes mainly from US patients who switch products, and from hemophilia treatment centers (HTCs) and home care companies with excess inventory. Project SHARE is the central advisory agency for anyone seeking information about donating factor overseas.

## OUR VISION

A global hemophilia community where lifesaving factor is shared consistently and conscientiously, alleviating the suffering of patients in underserved countries, and empowering patients to actively participate in their own healthcare.

## Our Mission

Encouraging the hemophilia community in developed countries to donate unwanted factor to developing countries, with the following goals:

- Attracting underserved patients to treatment centers
- Supporting camps, surgeries, and physical therapy
- Establishing independent hemophilia care
- Alleviating suffering and saving lives
- Fostering national hemophilia organizational development

## Activities & Accomplishments

- Donated 5.6 million IU of factor (valued at \$5.6 million) to 34 countries, providing relief to hundreds of people with bleeding disorders.
- Donated 356 mg (valued at \$427,000) of NovoSeven to six countries.
- Brokered donation of 1.9 million IU of Emoclot between Kedrion S.p.A and Nicaragua.
- Brokered donation of 145,000 IU of Emoclot and AIMAFIX between Kedrion S.p.A and Pakistan.
- Donated 1.44 million IU of factor VIII and IX to the Philippines.
- Emailed 12 monthly updates on all clotting products received and donated to Project SHARE partners, World Federation of Hemophilia (WFH), and other interested parties.
- Achieved over 490 friends on Facebook!
- Visited Zimbabwe in December (fourth visit) and Zambia, becoming the first hemophilia group to visit this country.

Countries and territories where we donated factor, including **three new** recipients to Project SHARE:

## How Project SHARE Has Helped

Donated factor to Toakau B. of Christmas Island, who was suffering from several bleeds in his joints.

Donated factor to Alin C. of Romania, who had brain and leg surgery due to a fall on the ice which caused a concussion and broken leg.

Donated factor to Alazar B. of Ethiopia, who suffered an injury on the left side of his face due to a fall in school.

Donated factor to the Nepal Hemophilia Society for various patients in need.

## Sources of Factor Donations

Project SHARE accepts donations of unwanted, in-date factor from all reputable sources, including specialty pharmacies, home care companies, US individuals, HTCs, hemophilia nonprofit organizations, and pharmaceutical companies. For donations from individual patients, a valid medical reason must exist. For example,

- You have changed factor brands.
- You have developed an inhibitor, or for some other medical reason you no longer respond to your current product.
- You have factor that cannot be used before it expires.

Our goal is to recover excess or unwanted factor that would otherwise be destroyed. We accept any number of vials, in any assay size, within days of expiration.

## Ancillary Supply Donations

Project SHARE's partnership with International Medical Equipment Collaborative (IMEC) allows donated durable medical equipment and ancillaries to reach qualified medical personnel in developing countries. Our partnership allows Project SHARE to focus on what we do best—shipping factor.

For more information, please contact IMEC directly.

## In Gratitude

Special thanks to all who have donated factor to Project SHARE, especially those who donated in memory of a loved one.

Project SHARE is grateful for the continued financial support of our corporate partners in 2012:

- ASD Healthcare
- Baxter Healthcare Corporation
- CSL Behring
- New England BioLabs
- Novo Nordisk Inc.
- Octapharma
