

Annual Report 2008

PROJECT
SHARE

It's time to give back

Honestly, I am short of words to express my heartfelt gratitude to Project SHARE and LA Kelley Communications. There is no phrase better, richer, more expressive and fuller in meaning than "Thank you" from the bottom of my heart. God bless you.

~ R. N., Nigeria

Thanks so much for all your help in getting this to someone who can use it. I hated the idea of throwing it away.

~ D. S., USA

INTRODUCTION

Project SHARE (Supplying Hemophilia Aid and Relief) is a humanitarian program devoted solely to donating life-saving antihemophilic factor to the bleeding disorders community in developing countries.

Founded in 2002, Project SHARE is the world's first private humanitarian hemophilia program to partner with corporations to ship medicine to patients who do not qualify for assistance from any other source. Thanks to Project SHARE, millions of dollars worth of factor that would be

destroyed is able to reach impoverished people with bleeding disorders. Project SHARE saves lives.

Project SHARE donations help attract rural patients to treatment centers for care. Donations also encourage patients to create hemophilia societies where none exist. Project SHARE serves as a central advisory agency for HTCs, hemophilia nonprofits, home care agencies, and patients seeking information about donating factor overseas.

ACCOMPLISHMENTS

- Donated 3.7 million IUs of factor (valued at \$3.7 million), providing relief to hundreds of people with hemophilia, including:
 - 150,000 IUs of inhibitor product to the Philippines for Angelo C. to remove a pseudotumor from his hip.
 - 12,000 IUs to the Ivory Coast to save the life of Sako Y.
 - 23,000 IUs to Dipin S. of Nepal, to treat a head bleed.
- Welcomed ASD Healthcare to the advisory board.
- Donated 125,000 IUs to Romania, and 155,000 IUs to the Dominican Republic for summer camps.
- Emailed 52 weekly updates on all factor donations to the advisory board, World Federation of Hemophilia, and other interested parties.
- Made site visits to the Dominican Republic, Ecuador and the Philippines.
- Expanded Project SHARE's outreach to 55 countries, including **four new ones**.

- Afghanistan
- Albania
- Algeria
- Armenia
- Bahamas
- Bangladesh
- Belize
- Bolivia
- Bosnia
- Cambodia
- China
- Colombia
- Dominican Republic
- Ecuador

- Egypt
- El Salvador
- Ethiopia
- Ghana
- Guatemala
- Guyana
- Haiti
- Honduras
- India
- Indonesia
- Iraq
- **Ivory Coast**
- Jamaica
- Kazakhstan

- Kenya
- Lebanon
- Mexico
- **Moldova**
- Mongolia
- Morocco
- Nepal
- Nicaragua
- Nigeria
- Pakistan
- **Paraguay**
- Palestine
- Peru
- Philippines

- Romania
- Russia
- Senegal
- Serbia & Montenegro
- St. Vincent & the Grenadines
- Surinam
- **Tanzania**
- Trinidad & Tobago
- Uganda
- Ukraine
- Uzbekistan
- Vietnam
- Zimbabwe

Where We Have Helped

Perú

Project SHARE provided factor to 22-year-old Max G. for long awaited knee surgery and post-operative procedures.

Zimbabwe

Project SHARE is helping to arrange orthopedic surgery in the US for 18-year-old Elton S. Expert medical help is unavailable in Zimbabwe, but without it he risks the loss of his leg or even his life.

Cambodia

With just a little more than 4,000 IUs factor, 18-month-old Nuon was quickly treated for a head bleed before it became life-threatening.

Philippines

The majority of 2008 donations went to the Philippines. Many patients, like five-year-old Romel, travel great distances to reach a hospital, only to find no factor. Project SHARE works with national hemophilia leaders to solve severe factor shortages.

Romania

Project SHARE donated more than 100,000 IUs to 48-year-old Marius C. for surgery. Without factor, Romanian doctors would not operate.

ANCILLARY SUPPLY DONATIONS

Project SHARE's partnership with International Medical Equipment Collaborative (IMEC) allows donated durable medical equipment and ancillaries to reach qualified medical personnel in developing countries. SHARE helped broker supplies and equipment donations worth more than \$65,000 to IMEC. Our partnership permits Project SHARE to focus on what we do best—shipping factor only.

SOURCES OF FACTOR DONATIONS

Project SHARE accepts donations of unwanted, in-date factor from all reputable sources, including specialty pharmacies, home care companies, US individuals, HTC's, hemophilia nonprofit organizations, and pharmaceutical companies. Our goal is to recover excess or unwanted factor that would otherwise be destroyed. We accept any number of vials, in any assay size, within days of expiration.

IN GRATITUDE

Our deepest thanks go to all who donated factor to Project SHARE, especially those who donated in memory of a loved one.

Project SHARE exists only through the support of our corporate partners. We thank the following companies for their committed support over the past year:

- Accredo's Hemophilia Health Services
- ASD Healthcare
- Bayer HealthCare
- Baxter BioScience
- CSL Behring
- Grifols USA
- New England BioLabs
- Novo Nordisk Inc.

Special thanks to S.T.A.R. Children Relief for its help in Romania.

FACTOR RECIPIENTS 2008

Note: The Philippines received 21% of all SHARE factor donations.

OUR VISION

A global hemophilia community where life-saving factor is shared consistently and conscientiously, alleviating the suffering of patients in underserved countries, and empowering them to actively participate in their own healthcare.

OUR MISSION

Encouraging the hemophilia community in developed countries to donate unwanted antihemophilic factor (AHF) to developing countries, with the following goals:

- Attracting underserved patients to treatment centers.
- Supporting camps, surgeries and physical therapy.
- Establishing independent hemophilia care.
- Alleviating suffering and saving lives.
