

**PROJECT
SHARE**

It's time to give back

Annual Report 2010

Thank you very much for all your help to make my brother's surgery a success! Your compassion, hard work and efficiency is inspiring and very much appreciated! With my deepest gratitude!

~ *Nongji Zhang, China*

Project SHARE is the largest source of factor for people with hemophilia in Kenya, and for this, we are forever grateful to all the institutions that donate factor. Help us add life to the lives of our children. Thank you Project SHARE.

~ *Maureen Miruka, Kenya*

May God bless you and your organization and show you a way to continue impacting the lives of less fortunate people in the wonderful way that you do.

~ *Gerald Monize, Guyana*

WHAT IS PROJECT SHARE?

Project SHARE (Supplying Hemophilia Aid and Relief) is a humanitarian program that donates factor, a lifesaving blood-clotting medicine, to patients with bleeding disorders in developing countries, and to the hospitals and nonprofit organizations that support them.

Since its inception in 2002, Project SHARE's donations have allowed students to return to school; attracted rural patients to urban clinics for treatment and education; supported lifesaving surgeries and physiotherapy; empowered patients to take control of their health and wellness; and encouraged patients and families to create hemophilia societies where none existed.

Project SHARE's unique program assures that tens of millions of dollars worth of factor that would otherwise be destroyed reaches impoverished people with bleeding disorders. This factor comes mainly from US patients who switch products, and from hemophilia treatment centers (HTCs) and home care companies with excess inventory. Project SHARE is the central advisory agency for anyone seeking information about donating factor overseas.

OUR VISION

A global hemophilia community where lifesaving factor is shared consistently and conscientiously, alleviating the suffering of patients in underserved countries, and empowering them to actively participate in their own healthcare.

OUR MISSION

Encouraging the hemophilia community in developed countries to donate unwanted factor to developing countries, with the following goals:

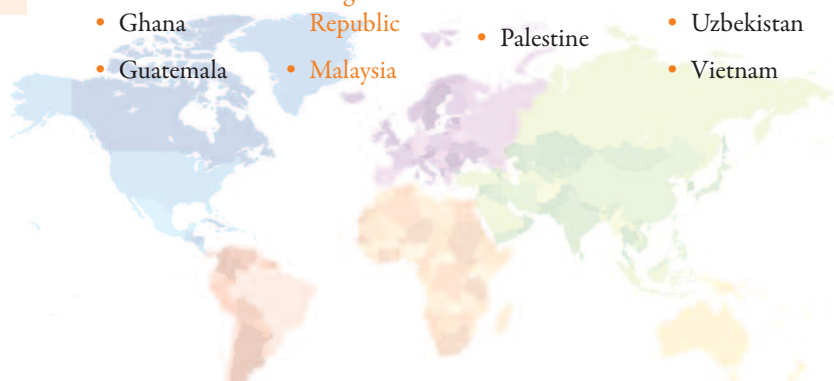

- Attracting underserved patients to treatment centers.
- Supporting camps, surgeries, and physical therapy.
- Establishing independent hemophilia care.
- Alleviating suffering and saving lives.
- Fostering national hemophilia organizational development.

ACTIVITIES & ACCOMPLISHMENTS

- Donated 5.7 million IU of factor (valued at \$5.7 million) to 36 countries, providing relief to hundreds of people with hemophilia.
- Brokered over 1 million IU of Uman Complex factor to Pakistan.
- Donated 30,000 IU of factor to Hemophilia Society of Rajkot, India, for camp.
- Emailed 52 weekly updates on all factor donations to Project SHARE's advisory board, World Federation of Hemophilia (WFH) and other interested organizations and companies.
- Climbed to more than 375 friends on Facebook!

We shipped factor to 36 countries in 2010, including three countries new to Project SHARE, which expanded our outreach to 59 countries since our inception.

Made site visits to the Dominican Republic, Haiti, Jamaica, Kenya, and India.

Donated factor to Clark Keith C. of the Philippines, who was suffering from a severe head bleed.

Supplied factor to Manjit S. of India for his surgery to enable him to move his hip and left leg.

Provided Carlos B. of Haiti factor for his emergency oral bleed.

2010 FACTOR RECIPIENTS BY REGION

ANCILLARY SUPPLY DONATIONS

Project SHARE’s partnership with International Medical Equipment Collaborative (IMEC) allows donated durable medical equipment and ancillaries to reach qualified medical personnel in developing countries. Our partnership permits Project SHARE to focus on what we do best—shipping factor.

For more information, please contact IMEC directly.

SOURCES OF FACTOR DONATIONS

Project SHARE accepts donations of unwanted, in-date factor from all reputable sources, including specialty pharmacies, home care companies, US individuals, HTC’s, hemophilia nonprofit organizations, and pharmaceutical companies. For donations from individual patients, a valid medical reason must exist. For example:

- You have changed factor brands.
- You have developed an inhibitor, or for some other medical reason you no longer respond to your current product.
- You have factor that cannot be used before it expires.

Our goal is to recover excess or unwanted factor that would otherwise be destroyed. We accept any number of vials, in any assay size, within days of expiration.

IN GRATITUDE

Special thanks to all who have donated factor to Project SHARE, especially those who donated in memory of a loved one.

Project SHARE is grateful for the continued support of our corporate partners:

- ASD Healthcare
- Baxter Healthcare Corporation
- CSL Behring
- Grifols USA
- New England BioLabs
- Novo Nordisk Inc.
- Octapharma
- Talecris Biotherapeutics
