

PROJECT SHARE

It's time to give back

What Is Project SHARE?

Project SHARE (Supplying Hemophilia Aid and Relief) is a humanitarian program that donates factor, a lifesaving blood-clotting medicine, to patients with bleeding disorders in developing countries, and to the hospitals and nonprofit organizations that support them.

Since its inception in 2002, Project SHARE's donations have: allowed students to return to school; attracted rural patients to urban clinics for treatment and education; supported lifesaving surgeries and physiotherapy; empowered patients to take control of their health and wellness; and encouraged patients and families to create hemophilia societies where none existed.

Project SHARE ensures that tens of millions of dollars worth of factor, which would otherwise be destroyed, reaches impoverished people with bleeding disorders. This factor comes mainly from US patients who switch products, and from hemophilia treatment centers (HTCs) and home care companies with excess inventory. Project SHARE is the central advisory agency for anyone seeking information about donating factor overseas.

OUR VISION

A global hemophilia community where lifesaving factor is shared consistently and conscientiously, alleviating the suffering of patients in underserved countries, and empowering patients to actively participate in their own healthcare.

Our Mission

Encouraging the hemophilia community in developed countries to donate unwanted factor to developing countries, with the following goals:

- Attracting underserved patients to treatment centers
- Supporting camps, surgeries, and physical therapy
- Establishing independent hemophilia care
- Alleviating suffering and saving lives
- Fostering national hemophilia organizational development

I thank everybody that was involved in saving my leg and all I can say is that I have never been happier than now!

- *Iuliu Maler, Romania*

Thanks for sending the donation to my nephew Rayyan. We appreciate your kindness.

- *Afrin Akther, Bangladesh*

I was hospitalized for a month due to hematuria and needed a lot of factor VII. I am very thankful to the kindhearted people who donated factors through Project SHARE and contributed to my healing.

- *John Merck Salazar, Philippines*

I am so grateful to Project SHARE since I am able to control my bleeds. My knee joint is a target bleed area and was badly damaged before, but now my knee has greatly improved and I only use a crutch when necessary.

- *Kenneth Karanja, Kenya*

We have come a long way now that we are able to get factor freely whenever I get bleeds. I am happy that I don't have any visible joint damage. Waking up and knowing that I have access to factor is a blessing to my family.

- *Paul Ayuku, Kenya*

I've finally received the first infusion of factor in my life— 1,000 IU! It took a long time for two interns to mix the formula and infuse it right, but with the help of videos on YouTube that I found, we finally did it! I know I've thanked you at least a dozen times, but I'll do it again. Thank you and your team. You rock!

- *Kunaal Prasad, Fiji*

Activities & Accomplishments

- Donated 46 million IU of factor (valued at \$46 million) to 34 countries.
- Donated 2,258 mg (valued at \$3.4 million) of NovoSeven® RT to 9 countries.
- Brokered 8 large donations to Kenya, Nepal, Cambodia, Myanmar, Philippines, Honduras, Nicaragua and Venezuela.
- Emailed 12 monthly updates on all clotting products received and donated to Project SHARE partners, World Federation of Hemophilia (WFH), and other interested parties.
- Provided factor for hemophilia camps in the Dominican Republic and Romania.
- Visited Nepal for one week to visit hospitals and patients.
- Visited Rwanda to meet with the new Rwanda Haemophilia Federation and conduct a strategic planning meeting.
- Visited Switzerland to meet with the Novo Nordisk Haemophilia Foundation to discuss working together on leadership training.
- Visited Pakistan for two weeks to meet with HTCs, chapters, patients and perform assessment of needs.

Shipped clotting medicine to 34 countries in 2017.

It's Time to Give Back

How Project SHARE Has Helped

Paul Ayuku received factor to treat his joint bleeds.

Stephen Muiruri requested factor to treat his damaged knee joint.

Iuliu Maler had factor donated for his knee prosthesis surgery.

Kunaal Prasad received factor to continue his leadership for the Fiji community.

Kenneth Karanja's factor treats his frequent knee bleeds.

2017 Factor Recipients by Region

Sources of Factor Donations

Project SHARE accepts donations of unwanted and unused in-date factor from all reputable sources, including specialty pharmacies, home care companies, US individuals, HTCs, hemophilia nonprofit organizations, and pharmaceutical companies. For donations from individual patients, a valid medical reason must exist. For example,

- You have changed factor brands.
- You have developed an inhibitor, or for some other medical reason you no longer respond to your current product.
- You have factor that cannot be used before it expires.

Our goal is to recover excess or unwanted factor that would otherwise be destroyed. We accept any number of vials, in any assay size, within days of expiration.

In Gratitude

A special thanks to all who have donated factor to Project SHARE in memory of a loved one.

Project SHARE is grateful for the continued financial support of our corporate partners:

- Octapharma
- ASD Healthcare
- Shire
- New England BioLabs
- Novo Nordisk Inc.
